### 1 Product Description

---

HipCheck lets you use your Windows Mobile, Blackberry, or any typical Java capable smart phone to monitor your Windows and SCO UNIX, Solaris, and Linux systems, set triggers for real-time event alerts, and then immediately respond to those alerts by viewing critical parameters and executing system commands. The HipCheck Service was introduced in October 2006. The 1.1 release provides the following new features:

- **Audit Trail**
- **New Windows Mobile and Windows native client user interface**
- **Support for Windows Mobile 6**
- **Support for Linux agents**
- **Greatly enhanced command execution**
- **Re-authentication before actions**
- **Software inventory list view**
- **Log file size alerts**
- **Service startup mode**
- **Power management support**
- **Improved Domain Controller support**
- **Active Directory authentication support**
- **New default port for Unix agent**
- **Packaging changes relevant to Unix agent**
- **Licensing user interface changes**

- **Internationalization and localization support**
- **Customization properties**

For a description of the product features and benefits, visit <http://scomobile.com/hipcheck/index.html> and for more details on features, see <http://hipcheck.sco.com/hipcheck-files/doc/LateNews/index.html#features3>.

When this version is deployed, the HipCheck Server is installed at the customer's site, inside their firewall. The HipCheck Server therefore has direct access to the servers on the customer's network. A proxy server outside the firewall can be configured to provide access from smart phones for daily operation. Direct access is also an option.

## **2 Services**

---

SCO's award-winning Global Services offer a complete portfolio of world-wide services on SCO's full range of software products, allowing customers powerful choices based on business requirements. We highly recommend for users of the SCO Mobile HipCheck Server to purchase option(s) best suited to their business requirements.

SCO offers a wide array of technical support services ranging from business critical, 24x7 after-hours offerings to traditional support services covering all products and customer types from partners to end users. In addition, SCO support services are available to partners for their own use and also for resale.

For these and other available options contact your SCO Sales Account Representative, or

in the Americas, phone 800-726-6561.

In the rest of the world, phone +44 8700 994 992

or visit <http://www.sco.com/support/programs>

### **PROFESSIONAL SERVICES**

SCO's Professional Services offer a full suite of consulting services for Mobile technologies and customization of mobile applications to suit customer's business requirements. For more information on Professional Services, visit <http://www.sco.com/consulting/>, or contact your local SCO sales representative, or call SCO Professional Services:

- In the Americas, phone 1-800-366-8649
- Outside of the Americas, phone +44 8700 994 992

## **3 Licensing**

---

The SCO Mobile HipCheck Server is licensed to monitor a fixed number of servers. The limit is controlled by a license key that is entered into the HipCheck Server. Each server requires a base license, and can have any number of servers added with optional additional licenses.

The existing licensing subsystem also enforces a limit on the number of users allowed on the system. Licenses for increasing this limit are available free of charge. A future release will eliminate the need for these licenses.

The HipCheck Server License is perpetual and includes the first year of software maintenance. Additional licenses are available for software maintenance after the first year, priced at 16.67% of the first year price.

## **4 Availability**

---

SCO is accepting orders for the model numbers below. The ISO image is available for download from the URL below and a media kit for version 1.1 is available from any SCO reseller. The installation CD has install images for all supported platforms.

## 5 New Model Numbers and Pricing (New Media Kit Model)

The following table lists the new Model Numbers and associated pricing (exclusive of local taxes and shipping charges) being introduced in this Announcement. Each HipCheck Server requires a base license and may have any number of additional server licenses.

License	License Pack	Web License		
HipCheck Server Media Kit	CA305-XX09-1.1	-		
HipCheck Server Base (5 users, 10 servers)	LB305-XX10-1	LB305-XX10W-1		
10 Additional Servers	LB305-XX01-1	LB305-XX01W-1		
25 Additional Servers	LB305-XX02-1	LB305-XX02W-1		
100 Additional Servers	LB305-XX03-1	LB305-XX03W-1		
500 Additional Servers	LB305-XX04-1	LB305-XX04W-1		
1000 Additional Servers	LB305-XX05-1	LB305-XX05W-1		
5000 Additional Servers	LB305-XX06-1	LB305-XX06W-1		
10000 Additional Servers	LB305-XX07-1	LB305-XX07W-1		
Unlimited servers	LB305-XX08-1	LB305-XX08W-1		
Additional User Licenses:				
5 Additional Users	LA303-0005-1	LA303-0005W-1		
10 Additional Users	LA303-0010-1	LA303-0010W-1		
50 Additional Users	LA303-0050-1	LA303-0050W-1		
100 Additional Users	LA303-0100-1	LA303-0100W-1		

The following table provides licenses for an additional twelve months of Maintenance based on the number of servers indicated. Maintenance is defined as access to software maintenance packs and it is regulated by the Expiration Date in the license on the HipCheck Server. When a Maintenance License is added to a server, the Expiration Date is extended according to the ratio of the number of Servers in the Maintenance License to the total number of Servers licensed on the system. For example if a 25 Server Maintenance license is added to a system licensed for a total of 100 servers, then the Expiration Date is extended by three months.

**Prices in the following table are reduced slightly in the October 19 Product Announcement update:**

Maintenance License	License Pack	Web License		
HipCheck Maintenance, 10 Servers	WU305-XX01-1	WU305-XX01W-1		
HipCheck Maintenance 25 Servers	WU305-XX02-1	WU305-XX02W-1		
HipCheck Maintenance 100 Servers	WU305-XX03-1	WU305-XX03W-1		
HipCheck Maintenance 500 Servers	WU305-XX04-1	WU305-XX04W-1		
HipCheck Maintenance 1000 Servers	WU305-XX05-1	WU305-XX05W-1		
HipCheck Maintenance 5000 Servers	WU305-XX06-1	WU305-XX06W-1		
HipCheck Maintenance 10000 Servers	WU305-XX07-1	WU305-XX07W-1		
HipCheck Maintenance Unlimited servers	WU305-XX08-1	WU305-XX08W-1		

## 6 System Requirements

The following table outlines the System Requirements for the SCO Mobile HipCheck Server.

Operating System	SCO OpenServer 6.0, with Maintenance Pack 3 or later UnixWare 7.1.4, with Maintenance Pack 3 or later Microsoft Windows Server 2003 R2
CPU	1.5 Gigahertz minimum

RAM	1 GB minimum, 2GB recommended
Disk space	500 MB minimum
Network access	Access to the Internet
